MILEX scholarship/award

- Gina met with someone from UMCP about this to get a sense of what was possible. She will meet with Drew (?), possibly for an iSchool student, with a focus on instruction. Our goal is to promote MILEX and "share the wealth" of knowledge on information literacy instruction.
- Sarah suggested we might give a membership to a first year graduate student(s), perhaps someone from the iSchool cohort of fellowship students.
- We would provide the criteria have the iSchool select the student(s).
- Offer this to iSchool (Maryland-based) students only or MLS candidates anywhere
- Partner with MLA?
- How many scholarships/awards and how much?

- We would expect the winner to speak or present as a result of being granted the award.

MILEX library instruction study

- PowerPoint presentation for group research ideas by Sarah and Mike. Some studies on information literacy were identified that we might reproduce to 1) gather our own data and analyze and 2) validate.
